YOUNG MEDICAL ENGINEERS

A free talk for students

Built for the Body

An introduction to medical engineering

Wednesday 23 December 2026

2:00 - 3:30 PM Peoria Public Library

Most people never hear of medical engineering until they are already in college. It is the field behind prosthetics, medical imaging, drug discovery and the devices clinicians rely on. Come and hear people who do the work explain what the job involves and how they got there. No background needed.

Free. All students welcome.
